HUMBOLDT WINS

BEAT CLARINDA TWICE, WHILE FALLS CITY LOST TO AUBURN.

HOT RACE TO THE CLOSE

The Two Teams Have Been Tied for a Week—Saturday Was the Close of the Mink League Season.

The Humboldt, Neb., team finished in first place in the Mink league, winning from Clarinda while Falls City was losing two games to Auburn. The race was close for the last three weeks, and for the last week Falls City and Humboldt have been tied for first place.

The Humboldt team is the old Comets ball team, and went to that town when Humboldt secured the Maryville franchise in the league in the first part of July. Many of the old players here then played with Humboldt.

All of the ball fans in Maryville were glad to see our former team win the pennant.

LADIES' BAND IS COMING RIGHT ALONG

Miss Alma Nash is meeting with signal success in the organization of a ladies' band for Maryville. Miss Nash expects to complete the organization by next week, with thirty-five or forty members. The only requirements for membership are a good moral character, musical ability and stick-to-it-iveness.

Every member to the present time is in earnest and expects to accomplish something in their work together in the study of the best music.

The band held an initial practice Monday afternoon. The first concert will be given in Maryville in February. A series of concerts will follow, assisted by artists on various instruments. All the director and members ask is the good will and support of our citizens. There is no reason why Maryville could not have a big drawing card in her ladies' band, and the members have a right to expect the cheerful co-operation of our people in their effort to give pleasure to all who may hear them. Those who have enlisted for work to the present time and the instruments they will play are:

Piccolo, Helen Rowley.

B flat clarinets, Dr. Gertrude DuVall, Hazel Smith, Mary O'Brien, Edith Davenport, Ora Quinn.

E flat clarinet, Marguerite Conway.

B flat cornet, Mabel Mason, Mary Q. Evans, Hazel Vandersloot, Hazel Garrett, Virginia Lawson.

E flat alto, Gertrude Mason, Grace O'Brien.

Melaphones, Hilda Denny, Lois McElroy.

Slide trombone, Mrs. May Clark Denny.

B flat tenor valve trombones, Mrs. Del Thompson, Lou Cunningham.

B flat baritone, Mary Thomas.

E flat bass, Minnie Reece.

E flat bass, Velma Gray.

String bass violin, Esther Eversole.

Snare drum and traps, Cornelia Hurst.

Bass drum, Verna Thomas.

Cymbals, Elizabeth Nash.

THE BOY WALKERS RETURNED TO CITY

After walking about thirty-five miles, George Kemp and Jack Evans, the two walkers who left Maryville last Thursday night on a proposed walking trip to San Francisco, decided to return home and arrived in Maryville Saturday night. The reason for giving up the proposed trip, as given by George Kemp, was that he got cold feet and that he didn't intend to walk any farther, and as Evans did not have a companion to accompany him on the trip he decided to return home also.

This is the second time the Maryville boys have started on a proposed walking trip, and it is thought now that another attempt will not be made.

ENROLLMENT OF THE STATE NORMAL SCHOOL FOR THIS TERM.

WORK ON STATE FARM LEFT NO RELATIVES

What is Being Done on the Experimental Farm—Prof. Douglas of the University to Be Here.

The Normal enrollment has passed the 200 mark, and it is expected it will soon reach 250. Routine work is now settled and everything is moving along in fine shape. The football squad will start work this afternoon, and this fall's athletics will take a prominent place in the school work. The literary societies will be reorganized and have their first meeting Friday night.

Crane had been in business at the Junction for thirty years, and it is said that today goods and various articles this quarter, which will put these subjects in a more prominent place than heretofore.

Rev. Harrel will address the students Wednesday morning.

In speaking of the work on the experimental farm, Mr. Cameron said that everything was in full swing for a busy season. The cowpeas which were sown on five of the ten plots have been harvested, a part of which will be used for hay and the remainder will be weighed, cut and thrown back on the soil.

Prof. T. R. Douglas, assistant in agronomy from the university, will arrive this week to superintend the planting of the winter wheat. The four acres which will be sown in wheat will be double disced, plowed to a depth of five inches, harrowed, double disced again, rolled, and harrowed a second time before the wheat is drilled in. The fertilizers which will be used are manure and rock phosphate, which will be applied before the ground is plowed, bone meal, potash and lime to be applied on other plots after plowing.

A field of rye will also be sown.

A plot of six acres just west of the building will be sown in new strains of wheat which have been developed at the university.

The corn, while no more than any other corn in this part of the country, has suffered not only from drouth but from worms and beetles. Early in the season the corn root worm attacked the roots of the young corn and did much damage. The grass green beetles are now eating the silks and the larva of the corn ear worm are damaging the grain on the ear.

The experiments as to the best method of planting corn have brought practically the same results. The corn was planted to top, furrowed, disced and listed, listed, and double listed, and scarcely any difference can be seen in any of the plots.

Work on the percentage of stand and suckers in the Farmers' Variety test will begin soon, and complete results tabulated as soon as possible after harvesting.

Visiting His Parents.

Ernest Ray of Okmulgee, Okla., arrived in Maryville Saturday evening for a week's visit with his parents, Mr. and Mrs. J. W. Ray. Mr. Ray has a fine position with the First National bank of Okmulgee.

ARC LAMP FELL UPON THE BUS

Monday morning as Shell Garten was leaving Rev. Father Anselm's residence with two passengers for the Burlington train, Rev. Father Placidus and Rev. Joakam, who were going to St. Joseph, the arc lamp at the intersection of the streets near Father Anselm's residence came down on the bus.

A large heavy pole that was the main support for the lamp, gave way and let the lamp down. If the wires to which the lamp is fastened had broken the fall of the lamp would have forced enough to go clear through the roof of the bus, and some one would have been hurt. As it was the driver and the occupants of the bus were only startled somewhat by the unusual accident.

The death of Col. Ed Butler of St. Louis marks the end of a unique career. Col. Butler was born in Ireland and began life in St. Louis as a blacksmith. He succeeded in his trade and became a leader in ward politics. He developed a remarkable aptitude for leadership in city politics, and by his organizing ability eventually became the one great power in St. Louis politics. For many years he controlled the city and named the men who should run on both Democratic and Republican tickets. When ex-Governor Folk was elected circuit attorney of St. Louis he made effectual warfare on the abominable conditions that had grown and flourished, and Col. Butler has convicted of bribery. He was later given a new trial by the supreme court and acquitted at a second trial. He accumulated great wealth, which is estimated to run into the millions. He never abandoned his blacksmith shop, but his political power was broken by Governor Folk.

CRANE FLAYS UNIVERSITIES

Scores Drinking and Gambling at Big Eastern Schools.

COLUMBIA HAS WORST RECORD

Report Tells Story of Drinking, Immorality, Brawling and Reckless Money Spending, With Numerous Examples—College Men in Prison.

Chicago, Sept. 11.—R. T. Crane, millionaire iron manufacturer, made public an arraignment of the big universities of the country. He charges alarming prevalence of drinking and gambling among the students. Columbia he ranks the worst, but conditions at Harvard, Princeton and Cornell, he declares, are almost as bad.

Of the students at Harvard 90 per cent drink in their freshman year, 95 per cent in their senior, and 15 per cent of them go irretrievably to the bad, according to the report of an investigation which Mr. Crane has made. Mr. Crane has spent much time and money putting under scrutiny the results of higher college education. So bitter is he in consequence that he declares colleges do more harm than good.

Results of Investigation.

Mr. Crane says in his report:

"An outsider can scarcely realize the amount of drinking that goes on in the club rooms of the colleges. Referring particularly to Harvard, he estimates the number of students who combine in a mild degree wine and bad women, 65 per cent; who drink heavily, 25 per cent, and who have two or three 'baths' a year, 45 per cent. "I do not doubt that even worse states of affairs exist at other colleges. At Princeton it is beer, beer, beer. The town is license and the body of students in my mind drink even more than Harvard men. On one occasion I believe there must have been more than 300 students dead drunk."

"At Yale, drinking is recognized in so great a degree that clubs have their tables at the bar rooms. I was never so shocked in my life as when I found New Haven the dissolute, debauched and whisky town that it is. Sometime ago, the statement appeared in a New Haven paper that there were 2,000 fallen women in that city."

"At Cornell the conditions are somewhat the same although I believe Cornell students do not carry their excesses so far as do boys at Princeton, Yale and Cambridge."

Columbia the Worst.

"At Columbia I believe there exists more debauchery than at any other college, on account of its proximity to the famous resorts of the city. If further proof be necessary, let me quote from a letter received from E. C. Mercer, who is special secretary of the Association of Colleges of North America. He says:

"I did say, and have written proof to back me up, that I have met personal and have heard from the most reliable authorities of some 1,200 college-bred men in the slums, prisons, jails and sanitaria who were down and out through fast living. The noted bread line in our city has constantly in it college-bred men."

The rest of Mr. Crane's report is a story of drinking, immorality, brawling and reckless money spending.

The report, which is printed in the current number of the Valve World, owned by Mr. Crane, describes unceasingly student dissipation and is a remorseless indictment of not only the universities, but of the municipal governments that permit such conditions.

FRANCE GETS GERMAN REPLY

Demands of Economic Guarantees Expected to Be Unacceptable.

Paris, Sept. 11.—Germany's counter proposals to those submitted by France regarding the settlement of the Moroccan difficulty reached Paris. M. de Selver, the foreign minister, after taking cognizance of them, immediately carried the document to Premier Caillaux.

The two ministers made a lengthy examination of its contents and decided to submit the counter proposals to specialists on Moroccan questions, notably M. Regnault, the French minister to Morocco. When they have formed an opinion the premier will call a meeting of the cabinet, probably Thursday, and lay the whole matter before the ministers for decision.

In accordance with an agreement made with the German government no communication was made to the press concerning the text of the document, but it is understood that Germany, in return for recognition of France's free hand in Morocco, demands economic guarantees which amount to privileges and which would be unacceptable not only to France, but to all the other powers, as they practically would suppress commercial equality in Morocco.

Crafty Mr. Stone.

The Honorable William Joel Stone is suspected of not caring much, politically, for former Governor Folk. He suggests, therefore, that a primary would settle the question of whether this state is "for" Folk or Clark.

Folk has the state's endorsement. Technically, he has no need for a primary. He also knows something about the fickleness of public opinion.

If we are allowed one guess, we will hazard the opinion that the former governor will not agree that a primary is necessary. The public, on the other hand, would be much interested in such a contest. Too many favorite sons are embarrassing. A primary would reduce the number—St Louis Times.

SHOPMEN FIRM FOR RECOGNITION

Kline Says Kruttschnitt Must Rescind or There Will Be Strike.

END CONFERENCE AT FRISCO.

International President of Blacksmiths' Union Declares Walkout Will Ense if Harriman Official Does Not Recognize Federation.

San Francisco, Sept. 11.—Unless Julius Kruttschnitt, vice president and director of maintenance of the Harriman Lines, recedes from his absolute refusal to recognize the federation of shop workers or its committees on those lines, he will be confronted with a strike. No reason for believing that he will recede has been found by labor leaders here.

General advisory committees of the five international shop craft unions which are comprised in the federation concluded here a three days' conference with the international officers of these unions. The general officers were entrusted with full charge of the situation henceforth and President J. W. Kline of the blacksmiths' union, their appointed spokesman, said that the general officers had made up their minds what they would do.

"Mr. Kruttschnitt will have to make concessions," said Mr. Kline, "or the public for which he has exhibited so much regard probably will suffer because he does not."

FOREIGNERS ORDERED OUT

Anti-Foreign Uprising Develops in Province of Sze Chuen, China.

Washington, Sept. 11.—Anti-foreign placards are being posted in Cheng-Tu, capital of the turbulent Chinese province of Sze-Chuen, according to rumors reaching the state department.

The apprehension of foreign residents is shown by the fact that British subjects, accompanied by other foreigners, have already left Cheng-Tu for Chung Kiang, where British, French and German gunboats are now lying. American Charge Williams at Peking cabled the state department that the British left.

Advices which reached the state department from other sources than the American legation not only confirm Mr. Williams' reports of the dissatisfaction of the natives with the railroad projects of the Chinese government, but foreshadow a great extension of the native agitation, owing to the distress resulting from the floods in the lower Yangtse-Kiang. These reports state that the great distress is almost certain to cause extensive riots later on and these probably will assume an anti-foreign phase.

Reports to the navy department indicate that Admiral Hubbard is rapidly disposing the American warships under his command for the protection of American interests, so far as possible.

Admiral Hubbard reports that four special river gunboats of foreign nationality have managed to work as far as Chung Kiang, more than one hundred miles above the point where the American vessels must stop, because of their heavier draft and almost in the center of the disturbed district.

TIES KNOT AT NEWPORT HOME

"I Should Not Like to Be in His Boots," the Treasurer of His Church Said—Other Congregational Ministers Denounce the Action.

Providence, R. I., Sept. 11.—Calling the performance of the Astor-Force marriage ceremony "disgraceful and a most unfortunate occurrence," members of the Elmwood Temple Congregational church, of which the Rev. Joseph M. Lambert, who tied the knot, is pastor, declared they would take action to ask formally for Dr. Lambert's resignation.

To escape the reporters who besieged her home, Mrs. Lambert has left and her whereabouts is unknown. Dr. Lambert is on the Astor yacht, with the bridal couple. It is expected he will be landed where the reporters can't reach him. Dr. Lambert's fee is variously estimated at from \$1,000 to \$5,000.

The Rev. Edward T. Root of the Federation of Churches of Rhode Island said: "It is most disgraceful and unfortunate. I suppose the \$1,000 fee was too much."

Henry W. Purington, treasurer of Dr. Lambert's church, said: "I should not like to be in Lambert's boots. I can't imagine what made him do it, unless it was the money."

It was said the preacher's action will be brought before the Congregational council of the state.

FORMER OMAHA MAYOR WEDS

George P. Bemis Surprises Friends and Meets Fiancée in Chicago.

Omaha, Sept. 11.—George P. Bemis, seventy-three years old, former mayor of Omaha and Elizabeth A. Neff, forty-three years old, also of Omaha, were married by Judge O. F. Heard in his chambers in the Cook county building at Chicago. Mr. Bemis strolled a march on his friends in Omaha and went to Chicago two days ago, where he met Mrs. Neff, who went to Chicago from Richmond, Ind., where she had been spending several months with relatives. They secured a license at noon.

Though white-haired and approaching the three-quarters of a century mark, Mr. Bemis declared he is young and will live to be 150 years old. He steps about as spry as many men not half his age.

Mr. Bemis is a cousin of the late George Francis Train. With him he toured Europe and established in London during the civil war the London American, the only newspaper that espoused the cause of the federal government during the war.

Alice Bowes Gets a Big Verdict Against N. W. Sly.

Saltina, Kan., Sept. 11.—The jury in the case of Alice Bowes of Topeka against N. W. Sly, a claim agent of the Union Pacific railroad, in which she asks \$50,000 damages for breach of promise, rendered a verdict assessing the damages at \$10,000.

The case was one of the most bitterly fought cases ever tried in Salina county. This was the third trial. The first trial ended when Miss Bowes fainted on the stand. The second trial resulted in a hung jury.

Sly has been a railroad man for years is well known along the Union Pacific railroad from Kansas City to Sharon Springs. Miss Bowes was a waitress in hotels in Kansas. Sly denied he ever proposed to Miss Bowes. He said that he might have been nice to her. Experience had taught him, he said, that the best way to get good service in the hotels and eating houses he was obliged to patronize, which he made a practice of doing.

LIVED TO WIN A BRIDE

Because He Believed He Was Jilted a Missourian Had Tried Suicide.

Jefferson City, Mo., Sept. 11.—Believing that his sweetheart no longer cared for him, William Moneyhan shot himself twice through the body last July in the presence of the girl and also in the presence of his mother. It was believed then and for weeks following that his wounds would prove fatal, but he was discharged from the hospital fully recovered, and he and his sweetheart, Emma Graham, were married at the home of the bride's mother. At the time Moneyhan tried to end his life, both were employees of one of the city shoe factories. It appears the girl had never intended to jilt him, and her attention to him after his attempted suicide caused him to make a wonderful fight for his life.

ENROLLMENT OF THE STATE NORMAL SCHOOL FOR THIS TERM.

WORK ON STATE FARM LEFT NO RELATIVES

What is Being Done on the Experimental Farm—Prof. Douglas of the University to Be Here.

The Normal enrollment has passed the 200 mark, and it is expected it will soon reach 250. Routine work is now settled and everything is moving along in fine shape. The football squad will start work this afternoon, and this fall's athletics will take a prominent place in the school work. The literary societies will be reorganized and have their first meeting Friday night. There is an increasing demand for agriculture and the physical sciences this quarter, which will put these subjects in a more prominent place than heretofore.

Rev. Harrel will address the students Wednesday morning.

In speaking of the work on the experimental farm, Mr. Cameron said that everything was in full swing for a busy season. The cowpeas which were sown on five of the ten plots have been harvested, a part of which will be used for hay and the remainder will be weighed, cut and thrown back on the soil.

Prof. T. R. Douglas, assistant in agronomy from the university, will arrive this week to superintend the planting of the winter wheat. The four acres which will be sown in wheat will be double disced, plowed to a depth of five inches, harrowed, double disc again, rolled, and harrowed a second time before the wheat is drilled in. The fertilizers which will be used are manure and rock phosphate, which will be applied before the ground is plowed, bone meal, potash and lime to be applied on other plots after plowing.

A field of rye will also be sown.

A plot of six acres just west of the building will be sown in new strains of wheat which have been developed at the university.

The corn, while no more than any other corn in this part of the country, has suffered not only from drought but from worms and beetles. Early in the season the corn root worm attacked the roots of the young corn and did much damage. The grass green beetles are now eating the silks and the larva of the corn ear worm are damaging the grain on the ear.

The experiments as to the best method of planting corn have brought practically the same results. The corn was planted to top, furrowed, disc and listed, listed, and double listed, and scarcely any difference can be seen in any of the plots.

Work on the percentage of stand and suckers in the Farmers' Variety test will begin soon, and complete results tabulated as soon as possible after harvesting.

The death of Col. Ed Butler of St. Louis marks the end of a unique career. Col. Butler was born in Ireland and began life in St. Louis as a blacksmith. He succeeded in his trade and became a leader in ward politics. He developed a remarkable aptitude for leadership in city politics, and by his organizing ability eventually became the one great power in St. Louis politics. For many years he controlled the city and named the men who should run on both Democratic and Republican tickets. When ex-Governor Folk was elected circuit attorney of St. Louis he made effectual warfare on the abominable conditions that had grown and flourished, and Col. Butler has convicted of bribery. He was later given a new trial by the supreme court and acquitted at a second trial. He accumulated great wealth, which is estimated to run into the millions. He never abandoned his blacksmith shop, but his political power was broken by Governor Folk.

COLUMBIA HAS WORST RECORD

Report Tells Story of Drinking, Immorality, Brawling and Reckless Money Spending, With Numerous Examples—College Men in Prison.

Chicago, Sept. 11.—R. T. Crane, millionaire iron manufacturer, made public an arraignment of the big universities of the country. He charges alarming prevalence of drinking and gambling among the students. Columbia he ranks the worst, but conditions at Harvard, Princeton and Cornell, he declares, are almost as bad.

Of the students at Harvard 90 per cent drink in their freshman year, 95 per cent in their senior, and 15 per cent of them go irretrievably to the bad, according to the report of an investigation which Mr. Crane has made. Mr. Crane has spent much time and money putting under scrutiny the results of higher college education. So bitter is he in consequence that he declares colleges do more harm than good.

Results of Investigation.

Mr. Crane says in his report:

"An outsider can scarcely realize the amount of drinking that goes on in the club rooms of the colleges. Referring particularly to Harvard, he estimates the number of students who combine in a mild degree wine and beer. At Princeton it is beer, beer.

"I do not doubt that even worse states of affairs exist at other colleges. At Princeton it is beer, beer. The town is license and the body of students in my mind drink even more than Harvard men. On one occasion I believe there must have been more than 300 students drunk."

"At Yale drinking is recognized in so great a degree that clubs have their tables at the bar rooms. I was never so shocked in my life as when I found New Haven the dissolute, debauched and whisky town that it is. Sometime ago, the statement appeared in a New Haven paper that there were 2,000 fallen women in that city.

"At Cornell the conditions are somewhat the same although I believe Cornell students do not carry their excesses so far as do boys at Princeton, Yale and Cambridge.

Columbia the Worst.

"At Columbia I believe there exists more debauchery than at any other college, on account of its proximity to the famous resorts of the city. If further proof be necessary, let me quote from a letter received from E. C. Mercer, who is special secretary of the Association of Colleges of North America. He says:

"I did say, and have written proof to back me up, that I have met personally and have heard from the most reliable authorities of some 1,200 college-bred men in the slums, prisons, jails and sanitaria who were down and out through fast living. The noted bread line in our city has constantly in it college-bred men."

The rest of Mr. Crane's report is a story of drinking, immorality, brawling and reckless money spending.

The report, which is printed in the current number of the Valve World, owned by Mr. Crane, describes unsparingly student dissipation and is a remorseless indictment of not only the universities, but of the municipal governments that permit such conditions.

FRANCE GETS GERMAN REPLY

Demands of Economic Guarantees Expected to Be Unacceptable.

Paris, Sept. 11.—Germany's counter proposals to those submitted by France regarding the settlement of the Moroccan difficulty reached Paris M. de Selver, the foreign minister, after taking cognizance of them, immediately carried the document to Premier Caillaux.

The two ministers made a lengthy examination of its contents and decided to submit the counter proposals to specialists on Moroccan questions, notably M. Regnault, the French minister to Morocco. When they have formed an opinion the premier will call a meeting of the cabinet, probably Thursday, and lay the whole matter before the ministers for decision.

In accordance with an agreement made with the German government, no communication was made to the press concerning the text of the document, but it is understood that Germany, in return for recognition of France's free hand in Morocco, demands economic guarantees which amount to privileges and which would be unacceptable not only to France, but to all the other powers, as they practically would suppress commercial activity in Morocco.

Crafty Mr. Stone.

The Honorable William Joel Stone is suspected of not caring much, politically, for former Governor Folk. He suggests, therefore, that a primary would settle the question of whether this state is "for" Folk or Clark.

Folk has the state's endorsement. Technically, he has no need for a primary. He also knows something about the fickleness of public opinion.

If we are allowed one guess, we will hazard the opinion that the former governor will not agree that a primary is necessary. The public, on the other hand, would be much interested in such a contest. Too many favorite sons are embarrassing. A primary would reduce the number—*St. Louis Times*.

Mrs. Rebecca Ellis and her daughter-in-law, Mrs. W.H. Ellis, of Barnard, were in Maryville Monday on business.

SHOPMEN FIRM FOR RECOGNITION

Kline Says Kruttschnitt Must Rescind or There Will Be Strike.

END CONFERENCE AT FRISCO.

International President of Blacksmiths' Union Declares Walkout Will ensue if Harriman Official Does Not Recognize Federation.

San Francisco, Sept. 11.—Unless Julius Kruttschnitt, vice president and director of maintenance of the Harriman lines, recedes from his absolute refusal to recognize the federation of shop workers or its committees on those lines, he will be confronted with a strike. No reason for believing that he will recede has been found by labor leaders here.

General advisory committees of the five international shop craft unions which are comprised in the federation concluded here a three days' conference with the international officers of these unions. The general officers were entrusted with full charge of the situation henceforth and President J. W. Kline of the blacksmiths' union, their appointed spokesman, said that the general officers had made up their minds what they would do.

"Mr. Kruttschnitt will have to make concessions," said Mr. Kline, "or the public for which he has exhibited so much regard probably will suffer because he does not."

FOREIGNERS ORDERED OUT

Anti-Foreign Uprising Develops in Province of Sze Chuen, China.

Washington, Sept. 11.—Anti-foreign placards are being posted in Cheng-Tu, capital of the turbulent Chinese province of Sze-Chuen, according to reporters reaching the state department.

The apprehension of foreign residents is shown by the fact that British subjects, accompanied by other foreigners, have already left Cheng-Tu for Chung Kiang, where British, French and German gunboats are now lying. American Chargé Williams at Peking cabled the state department that the British left.

Advices which reached the state department from other sources than the American legation not only confirm Mr. Williams' reports of the dissatisfaction of the natives with the railroad projects of the Chinese government, but foreshadow a great extension of the native agitation, owing to the distress resulting from the floods in the lower Yangtse-Kiang. These reports state that the great distress is almost certain to cause extensive riots later on and these probably will assume an anti-foreign phase.

Reports to the navy department indicate that Admiral Hubbard is rapidly disposing the American warships under his command for the protection of American interests, so far as possible.

Admiral Hubbard reports that four special river gunboats of foreign nationality have managed to work as far as Chung Kiang, more than one hundred miles above the point where the American vessels must stop, because of their heavier draft and almost in the center of the disturbed district.

This assures the funds for the first survey, which will be made by a New York engineering firm.

MAY OUST THE ASTOR PREACHER

Dr. Lambert's Congregation Incensed Because of His Action.

TIES KNOT AT NEWPORT HOME

"I Should Not Like to Be in His Boots," the Treasurer of His Church Said—Other Congregational Ministers Denounce the Action.

Providence, R. I., Sept. 11.—Calling the performance of the Astor-Force marriage ceremony "disgraceful and a most unfortunate occurrence," members of the Elmwood Temple Congregational church, of which the Rev. Joseph M. Lambert, who tied the knot, is pastor, declared they would take action to ask formally for Dr. Lambert's resignation.

To escape the reporters who besieged her home, Mrs. Lambert has left and her whereabouts is unknown. Dr. Lambert is on the Astor yacht, with the bridal couple. It is expected he will be landed where the reporters can't reach him. Dr. Lambert's fee is variously estimated at from \$1,000 to \$5,000.

The Rev. Edward T. Root of the Federation of Churches of Rhode Island said: "It is most disgraceful and unfortunate. I suppose the \$1,000 fee is too much."

Henry W. Burlington, treasurer of Dr. Lambert's church, said: "I should not like to be in Lambert's poots. I can't imagine what made him do it, unless it was the money."

It was said the preacher's action will be brought before the Congregational council of the state.

FORMER OMAHA MAYOR WEDS

George P. Bemis Surprises Friends and Meets Fiancée in Chicago.

Omaha, Sept. 11.—George P. Bemis, seventy-three years old, former mayor of Omaha and Elizabeth A. Neff, forty-three years old, also of Omaha, were married by Judge O. F. Heard in his chambers in the Cook county building at Chicago. Mr. Bemis stole a march on his friends in Omaha and went to Chicago two days ago, where he met Mrs. Neff, who went to Chicago from Richmond, Ind., where she had been spending several months with relatives. They secured a license at noon.

Though white-haired and approaching the three-quarters of a century mark, Mr. Bemis declared he is young and will live to be 150 years old. He steps about as spry as many men not half his age.

Mr. Bemis is a cousin of the late George Francis Train. With him he toured Europe and established in London during the civil war the London American, the only newspaper that espoused the cause of the federal government during the war.

JOLLYING COST HIM \$10,000

Alice Bowes Gets a Big Verdict Against N. W. Sly.

Salina, Kan., Sept. 11.—The jury in the case of Alice Bowes of Topeka against N. W. Sly, a claim agent of the Union Pacific railroad, in which she asks \$50,000 damages for breach of promise, rendered a verdict assessing the damages at \$10,000.

The case was one of the most bitterly fought cases ever tried in Saline county. This was the third trial. The first trial ended when Miss Bowes fainted on the stand. The second trial resulted in a hung jury.

Sly has been a railroad man for years is well known along the Union Pacific railroad from Kansas City to Sharon Springs. Miss Bowes was a waitress in hotels in Kansas. Sly denied he ever proposed to Miss Bowes. He said that he might have been nice to her. Experience had taught him, he said, that the best way to get good service in the hotels and eating houses was to be obliging to the waitresses, which he made a practice of doing.

LIVED TO WIN A BRIDE

Because He Believed He Was Jilted a Missourian Had Tried Suicide.

Jefferson City, Mo., Sept. 11.—Believing that his sweetheart no longer cared for him, William Moneyhan shot himself twice through the body last July in the presence of the girl and also in the presence of his mother. It was believed then and for weeks following that his wounds would prove fatal, but he was discharged from the hospital fully recovered, and he and his sweetheart, Emma Graham, were married at the home of the bride's mother. At the time Moneyhan tried to end his life, both were employees of one of the city shoe factories. It appears the girl had never intended to jilt him, and her attempt to him after his attempted suicide caused him to make a wonderful fight for his life.

Say, Have You Ever

Bought any coal from Frank G. Shoemaker and had it delivered with the big white wagon? Those white wagons don't make a bad appearance on the streets of the city do they? And the horses look like they had enough to eat too. So do the drivers. The scales and yards are kept up in the same way, and that system of doing business makes it a legitimate mercantile business, like any other business of the city, and worthy of your patronage if prices and coals are right, and they are—because I am behind every pound of coal sold. If it is not right I will see that all is satisfactory or money refunded. Let me figure with you for your winter coal.
